Citation. Texas Education Agency. (2012). *Secondary school completion and dropouts in Texas public schools, 2010-11: District supplement* (Document No. GE13 601 01). Austin, TX: Author.

Abstract. This supplement to the annual Texas Education Agency report on graduation, completion, and dropouts in Texas public secondary schools provides annual dropout rates by district and district characteristic for the 2010-11 school year. It also provides longitudinal graduation, completion, and dropout rates by district and longitudinal dropout rates by district characteristic for the class of 2011. Finally, the supplement provides a year-to-year district-level accounting of students served in Grades 7-12.

Keywords. *Secondary education, high school completion, dropouts, annual dropout rate, longitudinal dropout rate, completion rate, graduation rate, Grades 7-12.*

Introduction

The data tables and listings in this report provide secondary school completion and dropout data at the district level as a supplement to *Secondary School Completion and Dropouts in Texas Public Schools, 2010-11* (Texas Education Agency [TEA], 2012a). This supplement includes annual dropout rates for students in Grades 7-12 and longitudinal rates for secondary school graduates, continuing students, General Educational Development (GED) certificate recipients, and dropouts. District listings of annual dropout rates for 2010-11 and longitudinal graduation, completion, and dropout rates for the class of 2011 are presented with and without students excluded for state accountability purposes per Texas Education Code §39.053(g-1) (2011). Also included is a table with selected rates for the 20 largest school districts. A listing of the counts that make up the longitudinal cohort is also presented. This supplement also contains information on rate calculations and data quality; more information can be found in *Secondary School Completion and Dropouts in Texas Public Schools, 2010-11* (TEA, 2012a). A district listing of year-to-year reporting of students is included. Tables are presented allowing comparisons of average annual dropout and longitudinal dropout rates for district groupings based on a variety of enrollment, staffing, and financial characteristics.

Calculations

All data used in this report were collected and reported by Texas school districts and charter schools through the Public Education Information Management System (PEIMS) maintained by the Texas Education Agency (TEA) or by General Educational Development (GED) testing centers, which submit records to TEA. The rate calculations are the same as those used in the Academic Excellence Indicator System (AEIS).

In 2003, the 78th Texas Legislature passed legislation affecting the dropout rate calculated by TEA. Senate Bill 186 required that dropout rates be computed according to the National Center for Education Statistics (NCES) dropout definition beginning with the 2005-06 school year (Texas Education Code [TEC] §39.051, 2004). Under the NCES definition, a dropout is a student who is enrolled in public school in Grades 7-12, does not return to public school the following fall, is not expelled, and does not: graduate, receive a GED, continue school outside the public school system, begin college, or die.

In 2009, the Texas Legislature passed House Bill (HB) 3, requiring that students who meet certain criteria be excluded from campus and district dropout and completion rate calculations used for state accountability purposes (TEC §39.053(g-1), 2010). Although accountability ratings were not issued in 2012, annual dropout rates for 2010-11 and longitudinal rates for the class of 2011 were calculated with and without students excluded. Rates calculated without students excluded are comparable to rates from prior years. *Secondary School Completion and Dropouts in Texas Public Schools, 2010-11* (TEA, 2012a) contains information on the changes to data collection and processing that occurred as a result of adoption of the national definition and HB 3.

For the 2010-11 school year, dropouts in the annual rate are defined and counted according to the *2011-2012 Public Education Information Management System Post Addendum Version Data Standards* (TEA, 2012b) and *Secondary School Completion and Dropouts in Texas Public Schools, 2010-11* (TEA, 2012a). In this report, the annual dropout rate is calculated by dividing the number of students who dropped out of Grades 7-12 during the 2010-11 school year by the cumulative number of students enrolled at any time during the school year.

$$\frac{\text{number of students who dropped out during the school year}}{\text{number of students enrolled during the school year}}$$

In calculating annual dropout rates per TEC §39.053(g-1) (2011), students were removed regardless of their dropout statuses.

Longitudinal rates analyze student progress through high school. A cohort of students, identified by the starting grade and anticipated year of graduation, is tracked over a number of years, from the time students enter the specified grade until the fall following their anticipated graduation date. This report tracks the Grade 9 cohort, which consists of Texas public school students who attended

Grade 9 for the first time in the 2007-08 school year, as well as students who, during the next three school years, entered the Texas public school system in the grade level expected for the cohort. These students were expected to have graduated in spring 2011.

A subset of the cohort, called a class, is used to calculate the longitudinal rates presented in this report. A class consists of members of a cohort less those who leave the Texas public school system for reasons other than graduating, receiving a GED, or dropping out and those who cannot be tracked. Each class is identified by the anticipated year of graduation. This report uses the class of 2011 to calculate longitudinal rates for the Grade 9 cohort. The longitudinal rates are based on the final statuses of students: graduate, continuer, GED recipient, and dropout. A student is classified as a continuer if he or she is not a graduate and is reported as enrolled in the Texas public school system in the fall after his or her anticipated graduation. Only students in the cohort to whom final statuses are assigned are included as members of the class.

Dropping out is not necessarily the final status of a student. The status of a student who drops out changes if he or she returns and graduates, obtains a GED, or continues in school. Dropping out becomes the status of record only if it is the final status for a student. Dropouts are defined and counted according to the dropout definition in place the year they drop out.

As an example, the longitudinal rate for graduates is calculated by dividing the number of students who graduated by the number of students in the class.

$$\frac{\text{graduates}}{\text{graduates} + \text{continuers} + \text{GED recipients} + \text{dropouts}}$$

Longitudinal rates for students who continued in high school, GED recipients, and dropouts are calculated in a similar manner. The sum of the four rates is equal to 100 percent.

Students who graduated or continued in high school make up the Completion I rate for the class of 2011. Students who graduated, continued in high school, or received GED certificates make up the Completion II rate.

Through the class of 2009, longitudinal rates were calculated for districts and campuses if they served Grade 9 and Grade 11 or 12 in the first and fifth years of the cohort. To comply with federal accountability standards, a second criterion was added beginning with the class of 2010. Longitudinal rates for the classes of 2010 and 2011 were calculated for districts and campuses if they: (a) served Grade 9 and Grade 11 or 12 in the first and fifth years of the cohort or (b) served Grade 12 in the first and fifth years of the cohort.

In calculating longitudinal rates per TEC §39.053(g-1) (2011), students were removed regardless of their final statuses. For further explanation of the longitudinal rates, see *Secondary School Completion and Dropouts in Texas Public Schools, 2010-11* (TEA, 2012a).

Notes on Tables 1-4

Data Presentation in Table 2

A dash (–) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in such a manner as to provide a general idea of the number of students in the group while maintaining student anonymity. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate. (See also **Exclusions Applied per TEC §39.053(g-1)**.)

Data Presentation in Table 3

Parts may not add to 100 percent because of rounding. A dash (–) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size may be presented in such a manner as to provide a general idea of the number of students in the class while maintaining student anonymity. (See also **Exclusions Applied per TEC §39.053(g-1)**.)

Data Presentation in Table 4

A dash (–) indicates data are not reported to protect student anonymity. When the number of students is not reported, the cohort is presented in such a manner as to provide a general idea of the number of students in the cohort while maintaining student anonymity. (See also **Exclusions Applied per TEC §39.053(g-1)** and **Excluded Students**.)

Table Glossary

All Students. In Table 2, the "total" shown for all students is a cumulative count of students served by the district at any time during the school year.

At-Risk. An at-risk student is one who is identified as at risk of dropping out of school according to state statute (Texas Education Code [TEC] §29.081, 2011).

Class. A class is a subset of a Grade 9 cohort (see **Cohort**) used to calculate longitudinal student status rates. A class consists of members of a Grade 9 cohort less those who leave the Texas public school system for reasons other than

graduating, receiving a General Educational Development (GED) certificate, or dropping out and those who cannot be tracked. A class is identified by the expected year of graduation. For example, members of the class of 2011 are identified as students who attended Grade 9 in Texas public schools for the first time in the 2007-08 school year and were expected to have graduated in spring 2011. Students are tracked into the fall following their expected graduation. Longitudinal rates are based on the four possible final statuses of students: graduate, continuer, GED recipient, and dropout. A student is classified as a continuer if he or she is not a graduate and is reported as enrolled in the Texas public school system in the fall after his or her anticipated graduation. Only students in the cohort to whom final statuses are assigned are included as members of the class. Through the class of 2009, longitudinal rates were calculated for districts and campuses if they served Grade 9 and Grade 11 or 12 in the first and fifth years of the cohort. To comply with federal accountability standards, a second criterion was added beginning with the class of 2010. Longitudinal rates for the classes of 2010 and 2011 were calculated for districts and campuses if they: (a) served Grade 9 and Grade 11 or 12 in the first and fifth years of the cohort or (b) served Grade 12 in the first and fifth years of the cohort.

Cohort. A cohort is defined as the group of Texas public school students who begin Grade 9 for the first time in the same school year plus students who, during the next three school years, enter the Texas public school system in the grade level expected for the cohort. To analyze student progress through high school, a cohort of students is tracked over five school years, from the time they enter Grade 9 in the Texas public school system until the fall following their anticipated graduation date. Each cohort is identified by the starting grade and anticipated year of graduation. For example, members of the class of 2011 Grade 9 cohort were identified as students who attended Grade 9 in Texas public schools for the first time in the 2007-08 school year and were anticipated to have graduated in spring 2011.

Completion. Completion I consists of students who graduate or continue in high school. Completion II consists of those students plus students who receive General Educational Development (GED) certificates.

Continuation Rate. The continuation rate is the number of students from a class of beginning ninth graders who continued in high school after their anticipated graduation date divided by the number of students who graduated, continued in high school, received GED certificates, or dropped out.

Continuing Student. A continuing student is one who is enrolled in a Texas public school in the fall of the school year following expected graduation.

Dropout. A dropout is defined and counted according to the dropout definition in place the year the student drops out. Under the National Center for Education Statistics definition, which Texas adopted in the 2005-06 school year, a dropout is a student who is enrolled in public school in Grades 7-12, does not return to public school the following fall, is not expelled, and does not: graduate, receive a GED, continue school outside the public school system, begin college, or die. For more information on the definition of a dropout and calculation of dropout rates, refer to the *Public Education Information Management System Data Standards* (e.g., Texas Education Agency [TEA], 2012b) and the report, *Secondary School Completion and Dropouts in Texas Public Schools* (e.g., TEA, 2012a).

Dropout Rate. The annual dropout rate is the number of Grade 7-12 students who dropped out in a school year divided by the cumulative number of Grade 7-12 students enrolled at any time during the school year. The longitudinal dropout rate is the number of students from a class of beginning ninth graders who dropped out divided by the number of students who graduated, continued in high school, received GED certificates, or dropped out.

Economically Disadvantaged. An economically disadvantaged student is eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program (TEA, 2010). Eligibility for free or reduced-price meals is reported for each student at the time of enrollment or after completion of the school year and is used as a proxy for economically disadvantaged status.

Exclusions Applied per TEC §39.053(g-1). Under TEC §39.053(g-1) (2011), a student who meets at least one of the following criteria is excluded from campus and district dropout and completion rate calculations used for state accountability purposes: (a) a student who is ordered by a court to attend a high school

equivalency certificate program but has not earned a high school equivalency certificate; (b) a student previously reported to the state as a dropout; (c) a student in attendance but who is not in membership for purposes of average daily attendance (i.e., students for whom school districts are not receiving state Foundation School Program (FSP) funds); (d) a student whose initial enrollment in a school in the United States in Grades 7 through 12 was as an unschooled refugee or asylee as defined by TEC §39.027(a-1); (e) a student who is in the district exclusively as a function of having been detained at a county detention facility but is otherwise not a student of the district in which the facility is located; or (f) a student who is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult. No ratings were assigned in 2012 because the Texas public school accountability system was undergoing a statutorily mandated redesign. The new state accountability system will be introduced in 2013.

Excluded Students. An excluded student is a student required by statute to be excluded from campus and district dropout and completion rate calculations used for state accountability purposes. Students may be excluded under TEC §39.053 (g-1), §39.054(f), or §39.055 (2011). Two counts of excluded students, one with and one without exclusions under TEC §39.053(g-1) applied, are shown for each district. Students excluded under §39.054(f) and §39.055 are included in both counts. For details about TEC §39.053(g-1), see **Exclusions Applied per TEC §39.053(g-1)**. Under TEC §39.054(f), the dropout record for a student who fails to enroll in school after leaving a residential treatment facility or a pre- or post-adjudication facility is not attributed to the district serving the facility. Under TEC §39.055, a student in a Texas Youth Commission (TYC) or Texas Juvenile Probation Commission (TJPC) facility served by a Texas public school district is not counted in campus or district dropout or completion rates except under the following circumstances. If, through campus of accountability procedures, a student in a TYC or TJPC facility is attributed to a regular campus in the district in which the facility is located, the student is counted in the dropout or completion rate for that district.

Final Status. Final status is the academic status of a student as of the fall after his or her anticipated graduation date.

GED Recipient. A GED recipient is a student awarded a GED certificate by August 31, 2011.

GED Recipient Rate. The GED recipient rate is the number of students from a class of beginning ninth graders who received GED certificates divided by the number of students who graduated, continued in high school, received GED certificates, or dropped out.

Graduate. A graduate is a student awarded a high school diploma by a Texas public school by August 31, 2011.

Graduates+Continuers. The percentage of students who graduate or continue in high school is called Completion I.

Graduates+Continuers+GED Recipients. The percentage of students who graduate, continue in high school, or receive GED certificates is called Completion II.

Graduation Rate. The graduation rate is the number of students from a class of beginning ninth graders who graduated divided by the number of students who graduated, continued in high school, received GED certificates, or dropped out.

Graduation Rate With Errors. The graduation rate with errors is the number of students who graduated divided by the number of students who graduated, continued in high school, received GED certificates, dropped out, or had data errors that prevented the determination of a final status.

Other Leaver. An other leaver is a student reported by a district as having left school for reasons other than graduating, receiving a GED, or dropping out. In most cases, other leavers exit Texas public school to enter other educational settings, such as private schools in Texas, schools out of state, or home schooling. For more information on the definition of an other leaver, refer to the *Public Education Information Management System Data Standards* (e.g., TEA, 2012b) and the report, *Secondary School Completion and Dropouts in Texas Public Schools* (e.g., TEA, 2012a).

Race/Ethnicity. Race/ethnicity is one of the demographic characteristics reported for each student at the time of enrollment. In 2009-10, TEA began collecting data on student race and ethnicity in compliance with a new federal standard that

requires separation of categories for ethnicity and categories for race. For that year only, as a transitional measure, the data also were collected using the old standard. For more information on the change in reporting of race/ethnicity, refer to the report, *Secondary School Completion and Dropouts in Texas Public Schools, 2010-11* (TEA, 2012a). Annual dropout rates for 2010-11 and longitudinal rates for the class of 2011 were calculated based on the new racial/ethnic categories.

Student Identification Error. A student identification error is a student record submitted to the agency with problematic identification information. The unique identifying information of a student record permits year-to-year tracking of a student. A student identification error prevents tracking.

Underreported Student. An underreported student is a student reported in enrollment or attendance in one school year who has not been accounted for through district records or TEA processing the next year.

Data Presentation in Table 5

A dash (–) indicates data are not reported to protect student anonymity.

Table Glossary

Dropout. A dropout is defined and counted according to the dropout definition in place the year the student drops out. Under the National Center for Education Statistics definition, which Texas adopted in the 2005-06 school year, a dropout is a student who is enrolled in public school in Grades 7-12, does not return to public school the following fall, is not expelled, and does not: graduate, receive a General Educational Development (GED) certificate, continue school outside the public school system, begin college, or die. For more information on the definition of a dropout and calculation of dropout rates, refer to the *Public Education Information Management System Data Standards* (e.g., Texas Education Agency [TEA], 2012b) and the report, *Secondary School Completion and Dropouts in Texas Public Schools* (e.g., TEA, 2012a).

GED Recipient. A GED recipient is a student awarded a GED certificate by August 31, 2011.

Graduate. A graduate is a student awarded a high school diploma by a Texas public school by August 31, 2011.

Mover. A mover is a student who moves from one Texas public school district and enrolls in another.

Other Leaver. An other leaver is a student reported by a district as having left school for reasons other than graduating, receiving a GED, or dropping out. In most cases, other leavers exit Texas public school to enter other educational settings, such as private schools in Texas, schools out of state, or home schooling. For more information on the definition of an other leaver, refer to the *Public Education Information Management System Data Standards* (e.g., TEA, 2012b) and the report, *Secondary School*

Completion and Dropouts in Texas Public Schools (e.g., TEA, 2012a).

Previous Graduate. A previous graduate is a student reported to have graduated from a Texas public school in a previous school year.

Reporting Total. The reporting total is the total number of records for students in Grades 7-12 who were reported in enrollment or attendance in one school year.

Returning Student. A returning student is a student reported in enrollment or attendance in one school year who was reported to have reenrolled in the same district by the beginning of the next school year.

Underreported. An underreported student is a student reported in enrollment or attendance in one school year who has not been accounted for through district records or TEA processing the next year. The **Underreported Rate** is calculated by dividing the **Number of Underreported** students by the **Reporting Total** and multiplying by 100.

$$\text{Underreported Rate} = \frac{\text{Underreported}}{\text{Reporting Total}} \times 100$$

Notes on Tables 6 and 7

Source. Data about teachers, district expenditures, and students are from the Public Education Information Management System (PEIMS). Tax and property data are provided by the Comptroller's Property Tax Division. Information about college admissions examinations and the Texas Assessment of Knowledge and Skills (TAKS) is provided by the test contractors. All data are for the 2010-11 school year, with the exception of college admissions (e.g., SAT/ACT) and district expenditures (e.g., Operating Cost Per Student), which lag one year.

All Students

In Table 6, the "total" shown for all students is a cumulative count of students served at any time during the school year by districts with the specified characteristic. In Table 7, the "class" shown for all students is the number of students from a class of beginning ninth graders who were attributed to districts with the specified characteristic. (See also **Class**.)

Class

A class is a subset of a Grade 9 cohort (see **Cohort**) used to calculate longitudinal student status rates. A class consists of members of a Grade 9 cohort less those who leave the Texas public school system for reasons other than graduating, receiving a General Educational Development (GED) certificate, or dropping out and those who cannot be tracked. A class is identified by the expected year of graduation. For example, members of the class of 2011 are identified as students who attended Grade 9 in Texas public schools for the first time in the 2007-08 school year and were expected to have graduated in spring 2011. Students are tracked into the fall following their expected graduation. Longitudinal rates are based on the four possible final statuses of students: graduate, continuer, GED recipient, and dropout. A student is classified as a continuer if he or she is not a graduate and is reported as enrolled in the Texas public school system in the fall after his or her anticipated graduation. Only students in the cohort to whom final statuses are assigned are included as

members of the class. Through the class of 2009, longitudinal rates were calculated for districts and campuses if they served Grade 9 and Grade 11 or 12 in the first and fifth years of the cohort. To comply with federal accountability standards, a second criterion was added beginning with the class of 2010. Longitudinal rates for the classes of 2010 and 2011 were calculated for districts and campuses if they: (a) served Grade 9 and Grade 11 or 12 in the first and fifth years of the cohort or (b) served Grade 12 in the first and fifth years of the cohort.

Cohort

A cohort is defined as the group of Texas public school students who begin Grade 9 for the first time in the same school year plus students who, during the next three school years, enter the Texas public school system in the grade level expected for the cohort. To analyze student progress through high school, a cohort of students is tracked over five school years, from the time they enter Grade 9 in the Texas public school system until the fall following their anticipated graduation date. Each cohort is identified by the starting grade and anticipated year of graduation. For example, members of the class of 2011 Grade 9 cohort were identified as students who attended Grade 9 in Texas public schools for the first time in the 2007-08 school year and were anticipated to have graduated in spring 2011.

Cost of Education Index

The Cost of Education Index (CEI) reflects geographic variations in costs beyond the control of districts. The CEI has a minimum value of 0.0 and a maximum of 1.2. Most districts have CEI values of at least 1.0. Districts with CEI values of 0.0 are primarily charter school districts. Districts are grouped into five subcategories, each with approximately the same number of districts.

District Type

Districts are grouped into eight subcategories, ranging from major urban to rural, based on factors such as enrollment, growth in enrollment, economic status, and proximity to urban areas. Charter school districts make up a ninth subcategory. The subcategories are as follows.

Major Urban. A district is classified as major urban if: (a) it is located in a county with a population of at least 775,000; (b) its enrollment is the largest in the county or at least 75 percent of the largest district enrollment in the county; and (c) at least 35 percent of enrolled students are economically

disadvantaged. A student is reported as economically disadvantaged if he or she is eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program.

Major Suburban. A district is classified as major suburban if: (a) it does not meet the criteria for classification as major urban; (b) it is contiguous to a major urban district; and (c) its enrollment is at least 3 percent that of the contiguous major urban district or at least 4,500 students. A district also is classified as major suburban if: (a) it does not meet the criteria for classification as major urban; (b) it is not contiguous to a major urban district; (c) it is located in the same county as a major urban district; and (d) its enrollment is at least 15 percent that of the nearest major urban district in the county or at least 4,500 students.

Other Central City. A district is classified as other central city if: (a) it does not meet the criteria for classification in either of the previous subcategories; (b) it is not contiguous to a major urban district; (c) it is located in a county with a population of between 100,000 and 774,999; and (d) its enrollment is the largest in the county or at least 75 percent of the largest district enrollment in the county.

Other Central City Suburban. A district is classified as other central city suburban if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it is located in a county with a population of between 100,000 and 774,999; and (c) its enrollment is at least 15 percent of the largest district enrollment in the county. A district also is other central city suburban if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it is contiguous to an other central city district; (c) its enrollment is greater than 3 percent that of the contiguous other central city district; and (d) its enrollment exceeds the median district enrollment for the state of 779 students.

Independent Town. A district is classified as independent town if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it is located in a county with a population of 25,000 to 99,999; and (c) its enrollment is the largest in the county or greater than 75 percent of the largest district enrollment in the county.

Non-Metropolitan: Fast Growing. A district is classified as non-metropolitan: fast growing if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it has an

enrollment of at least 300 students; and (c) its enrollment has increased by at least 20 percent over the past five years.

Non-Metropolitan: Stable. A district is classified as non-metropolitan: stable if: (a) it does not meet the criteria for classification in any of the previous subcategories; and (b) its enrollment exceeds the median district enrollment for the state.

Rural. A district is classified as rural if it does not meet the criteria for classification in any of the previous subcategories. A rural district has either: (a) an enrollment of between 300 and the median district enrollment for the state and an enrollment growth rate over the past five years of less than 20 percent; or (b) an enrollment of less than 300 students.

Charter School Districts. Charter school districts are open-enrollment school districts chartered by the State Board of Education. Established by the Texas Legislature in 1995 to promote local initiative, charter school districts are subject to fewer regulations than other public school districts. Generally, charter school districts are subject to laws and rules that ensure fiscal and academic accountability but that do not unduly regulate instructional methods or pedagogical innovation. Like other public school districts, charter school districts are monitored and accredited under the statewide testing and accountability system.

Dropout

A dropout is defined and counted according to the dropout definition in place the year the student drops out. Under the National Center for Education Statistics definition, which Texas adopted in the 2005-06 school year, a dropout is a student who is enrolled in public school in Grades 7-12, does not return to public school the following fall, is not expelled, and does not: graduate, receive a GED, continue school outside the public school system, begin college, or die. For more information on the definition of a dropout and calculation of dropout rates, refer to the *Public Education Information Management System Data Standards* (e.g., Texas Education Agency [TEA], 2012b) and the report, *Secondary School Completion and Dropouts in Texas Public Schools* (e.g., TEA, 2012a).

Dropout Rate

The annual dropout rate is the number of Grade 7-12 students who dropped out in a school year divided by the cumulative number of Grade 7-12 students enrolled at any time during the school year. The longitudinal dropout rate is the

number of students from a class of beginning ninth graders who dropped out divided by the number of students who graduated, continued in high school, received GED certificates, or dropped out.

Economically Disadvantaged

An economically disadvantaged student is eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program (TEA, 2010). Eligibility for free or reduced-price meals is reported for each student at the time of enrollment or after completion of the school year and is used as a proxy for economically disadvantaged status. (See also **Students: Economically Disadvantaged, Percentage.**)

Education Service Center Regions

The state is divided into 20 geographic regions, each served by an education service center (ESC). Although not usually the case, an ESC may serve districts outside its geographic boundaries. For this category, districts are grouped by the ESC regions that serve them, not by the ESC regions in which they are located geographically.

Enrollment

Districts are grouped into nine subcategories based on number of students enrolled. Enrollment counts are taken on the last Friday in October of each year.

Highest Property Value

Each district is placed into one of four subcategories of taxable property based on type of property with the highest value for the district. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not have taxable property. The four subcategories of taxable property are:

- residential: single-family and multi-family residential, and residential inventory;
- land: vacant lots and taxable rural real property;
- oil and gas: oil, gas, and minerals; and
- business: commercial and industrial real property, commercial and industrial personal, and utilities.

Operating Cost Per Student

Operating costs are the sum of actual expenditures for a district's operation. Note that the number shown is not the amount actually spent on each student, but rather a per-student average of the

total. Per-student amounts are calculated as expenditures for the prior school year divided by the current number of students. Districts are grouped into five subcategories, each with approximately the same number of districts.

Property Wealth: Average, Equal Student Groups, and Median

Property wealth is used as an indicator of a district's ability to raise local funds on a per-student basis. It is calculated as total taxable property value for the last completed calendar year divided by total enrollment for the current school year. Taxable value is the traditional measure of value, not the alternative value used in state funding formulas. The "property wealth: average" category classifies districts as either under or over the state average for district property wealth. The "property wealth: equal student groups" category groups districts by property wealth into 20 subcategories, each accounting for approximately the same number of students. The "property wealth: median category" groups districts by property wealth into 10 subcategories, each with approximately the same number of districts. In each of the three categories, special statutory school districts and charter school districts make up a separate subcategory, labeled "non-taxing entities," because they do not have taxable property wealth.

Race/Ethnicity

Race/ethnicity is one of the demographic characteristics reported for each student at the time of enrollment. In 2009-10, TEA began collecting data on student race and ethnicity in compliance with a new federal standard that requires separation of categories for ethnicity and categories for race. For that year only, as a transitional measure, the data also were collected using the old standard. For more information on the change in reporting of race/ethnicity, refer to the report, *Secondary School Completion and Dropouts in Texas Public Schools, 2010-11* (TEA, 2012a). Annual dropout rates for 2010-11 were calculated based on the new racial/ethnic categories. Longitudinal dropout rates for the class of 2011 were calculated based on the new racial/ethnic categories.

SAT/ACT 2009-10: At or Above Criterion, Percentage

Districts are grouped into five subcategories based on percentage of examinees in the prior year who scored at or above the criterion score on either the SAT or ACT. Districts that did not have test takers make up a sixth subcategory. Criterion on the SAT

is a combined score of 1110, and criterion on the ACT is a composite score of 24.

SAT/ACT 2009-10: Participation, Percentage

Districts are grouped into three subcategories based on percentage of non-special education graduates who took the SAT, ACT, or both in the prior year. Districts that did not have graduates make up a fourth subcategory.

Small/Sparse Adjustment

Districts are grouped into four subcategories, each with approximately the same number of districts, based on adjustments to state funding to compensate for small and/or sparsely populated districts. Districts receiving no small/sparse adjustment make up a fifth subcategory. Small/sparse adjustments are shown as percentages of total adjusted basic allotment amounts.

Student Change: 2009-10 – 2010-11

Districts are grouped into five subcategories based on change in enrollment from the prior school year to the current school year.

Student Density

Districts are grouped into four subcategories based on number of students per square mile. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not have mileage information.

Students: African American, Hispanic, and White, Percentage

In each of these three categories, districts are grouped into six subcategories based on racial/ethnic composition of enrollment. Racial/ethnic groups reflect a new federal standard that determines: (a) if the student is Hispanic; and (b) his or her race, or races, based on a student's option to report more than one race. African American students are not reported as Hispanic and identify African American as their only race. Hispanic students report Hispanic as their ethnicity and may report any race. White students are not reported as Hispanic and identify White as their only race.

Students: Economically Disadvantaged, Percentage

Districts are grouped into six subcategories based on percentage of enrollment reported as economically disadvantaged. A student is reported

as economically disadvantaged if he or she is eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program.

TAKS: Passing All Tests Taken, Percentage

Districts are grouped into five subcategories based on percentage of Texas Assessment of Knowledge and Skills (TAKS) examinees in Grades 3-11 who passed all TAKS tests taken. Districts that did not administer TAKS make up a sixth subcategory. The percentages include only examinees who were enrolled in the same districts in October of the school year.

Tax: Local Adopted Rate

Districts are grouped into four subcategories, each with approximately the same number of districts, based on total locally-adopted tax rate. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not levy property taxes. The total locally-adopted tax rate is made up of a maintenance and operation rate and a debt service rate (sometimes referred to as the Interest and Sinking fund rate). Rates are expressed per \$100 of taxable value.

Tax: Local Maintenance & Operation Rate

Districts are grouped into three subcategories based on locally-adopted maintenance and operation (M&O) tax rate. Special statutory school districts and charter school districts make up a fourth subcategory, labeled "non-taxing entities," because they do not levy property taxes. The M&O rate includes money generated by districts for equalizing wealth.

Teacher Experience

Districts are grouped into four subcategories, each with approximately the same number of districts, based on average years of teacher experience. The average for a district is calculated by multiplying the full-time-equivalent (FTE) count for each teacher by years of experience. Results are summed, then divided by the FTE count for all teachers.

Teacher Salary

Districts are grouped into four subcategories, each with approximately the same number of districts, based on average teacher salary. The average for a district is calculated by dividing the salary for all

teachers by the full-time-equivalent (FTE) count for all teachers. Salaries reflect pay for regular duties only; they do not include pay for supplemental duties.

Teachers: White, Percentage

Districts are grouped into six subcategories based on percentage of White teachers. Racial/ethnic groups reflect a new federal standard that determines: (a) if the teacher is Hispanic; and (b) his or her race, or races, based on a teacher's option to report more than one race. White teachers are not reported as Hispanic and identify White as their only race. The percentage for a district is calculated by dividing the full-time-equivalent (FTE) count for White teachers by the FTE count for all teachers.

Teachers: With Advanced Degrees, Percentage

Districts are grouped into four subcategories, each with approximately the same number of districts, based on percentage of teachers with advanced degrees. The percentage for a district is calculated by dividing the full-time-equivalent (FTE) count for teachers with master's or doctorate degrees by the FTE count for all teachers.

U.S.-Mexico Border Region

Districts are grouped into two subcategories, border and non-border, based on their geographic relationship to the U.S.-Mexico border. The districts classified as border districts are those that are located in the 32 counties situated within approximately 62.5 miles of the U.S.-Mexico border, based on the 1983 Agreement on Cooperation for the Protection and Improvement of the Environment in the Border Area (aka, the La Paz Agreement). The La Paz Agreement defines the U.S.-Mexico border region as extending more than 2,000 miles from the Gulf of Mexico to the Pacific Ocean and approximately 62.5 miles on either side of the border.

Compliance Statement

Title VI, Civil Rights Act of 1964, the Modified Court Order, Civil Action 5281, Federal District Court, Eastern District of Texas, Tyler Division.

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

1. acceptance policies on student transfers from other school districts;
2. operation of school bus routes or runs on a nonsegregated basis;
3. nondiscrimination in extracurricular activities and the use of school facilities;
4. nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;
5. enrollment and assignment of students without discrimination on the basis of race, color, or national origin;
6. nondiscriminatory practices relating to the use of a student's first language; and
7. evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, U.S. Department of Education.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

Title VII, Civil Rights Act of 1964 as Amended by the Equal Employment Opportunity Act of 1972; Executive Orders 11246 and 11375; Equal Pay Act of 1964; Title IX, Education Amendments; Rehabilitation Act of 1973 as Amended; 1974 Amendments to the Wage-Hour Law Expanding the Age Discrimination in Employment Act of 1967; Vietnam Era Veterans Readjustment Assistance Act of 1972 as Amended; Immigration Reform and Control Act of 1986; Americans With Disabilities Act of 1990; and the Civil Rights Act of 1991.

The Texas Education Agency shall comply fully with the nondiscrimination provisions of all federal and state laws, rules, and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any educational programs or activities which it operates on the grounds of race, religion, color, national origin, sex, disability, age, or veteran status (except where age, sex, or disability constitutes a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency is an Equal Opportunity/Affirmative Action employer.
